

Simplified Home Care Billing

Power accurate, compliant, and faster billing with CareSmartz360.

Key Features of CareSmartz360 Billing Solution:

- ✓ Simplified Invoicing
- ✓ Revenue Cycle Management
- ✓ Faster Reimbursements
- ✓ Multi-Payer Billing Management
- ✓ One-Click Payment Processing
- ✓ QuickBooks Integration

Improve financial performance with automated billing

CareSmartz360 offers a centralized billing infrastructure that reduces manual work, minimizes claim denials, and protects revenue across Medicaid, VA, LTCI, and private pay. Automate invoicing, streamline payer workflows, and maintain stronger cash flow, all from one connected platform.

Process Payments in One Click

Create precise invoice batches using powerful filters by location, client, payer, service type, and date range while maintaining centralized visibility across all locations.

Supports Multiple Payers

Automatically split invoices across Medicaid, LTCI, VA, and private pay; apply payer-specific rules and authorization limits.

Secure Integration

Integrate with accounting and payroll systems to streamline financial operations and workforce payments.

Medicaid Claims Management

Sync GPS-verified visits into billing and validate claims before submission to reduce denials and speed reimbursement.

Receivables & Financial Reporting

Track outstanding balances, monitor claim status, and analyze payer performance with real-time financial reporting.

Get Paid Faster

Reduce denial rates, accelerate reimbursements, and empower clients with secure portal access to review invoices and submit payments quickly.

Amazing Product. It has solved all my billing and payroll issues. The same information pulled for one process is used for the other, so you don't have to do the same thing over and over again. And I love customer support. I don't even have to call... chatting online works just as well. I'm glad I switched.

Ama

OptimumCare Home Care Services

Enterprise Home Care Management Software to transform the way you provide care.

WHY CareSmartz360?

- APIs for secure integration
