

Multilingual Caregiver App

Designed for growing home care teams, our multilingual caregiver app simplifies communication, visit verification, and documentation—so caregivers deliver consistent, high-quality care.

A Caregiver's Personal Organizer

- Multilingual Support
- Real-Time Communication
- Electronic Visit Verification
- View Care Plans On The Go
- GPS-Based Clock-In/Clock-Out
- Shift Tasks & Shift Status
- Offline Mode & Alerts

One App. Every Caregiver Role.

The GPS-enabled CareSmartz360+ Caregiver App supports field-based caregivers as they move between client visits. It serves as a single, intuitive dashboard where caregivers can communicate in their preferred language, access schedules, view routing details, track time, and review care plans in real time.

Available on Android and iOS, the app is built with caregiver-friendly tools designed to improve accountability, documentation accuracy, and daily workflow efficiency.

Multilingual Support

- ✓ Language accessibility for diverse caregiver teams
- ✓ Clear communication across agency and field staff
- ✓ Streamlined, easy-to-follow workflows
- ✓ Simple navigation across all in-app features
- ✓ Improved productivity and reduced confusion

Shift & Calendar Management

- ✓ View assigned, open, & available shifts
- ✓ Accept or decline shifts instantly
- ✓ Update availability status in real time
- ✓ Receive live updates from the agency
- ✓ Add notes and task updates per visit

Efficient Team Communication

- ✓ Real-time schedule and shift notifications
- ✓ Quick access to client profiles and care plans
- ✓ GPS-enabled clock-in and clock-out
- ✓ Offline mode with secure data sync
- ✓ Upload and store required compliance documents

Additional Capabilities

- ✓ Record expenses and request reimbursements
- ✓ Document incidents or injuries during shifts
- ✓ Built-in route navigation to client locations
- ✓ Health and safety tracking features

“

The usability aspect of the caregiver app is improving day by day. The major plus is its offline capabilities.
