Advanced Custom Reporting and Personalized Dashboards

CareSmartz360 is a powerful solution for enterprise reporting needs. It allows home care businesses to create more accurate reports faster while consolidating data across operations for clearer oversight. Create custom dashboards to monitor key metrics, identify trends, flag compliance issues, predict costs, manage staffing needs, and ultimately make informed decisions and deliver better care.

Over 200 Prebuilt Reports

Access over 200 standard reports across clients, caregivers, scheduling, EVV, billing, payroll, and accounting.

Generate Robust Customized Reports

Create reports that can be customized to the format of your choice. Save & share these reports with clients or users by exporting them as a PDF, CSV, or other formats.

Minimize Repetitive Report Building

Save your custom reports once, and rerun them whenever updated data is needed, without rebuilding from scratch.

Ensure Data Confidentiality

Set access rights to control who can see your report and to what extent.

Personalized Dashboard

Customize your dashboard with required widgets and keep key operational metrics in one place for faster decision-making.

Save Time & Eliminate Paperwork

Eradicate the need for manual reporting and paper management.

Very user friendly and great customer service. They have customized many different reports and features to fit our business model. We had used a previous software before and switching to CareSmartz360 was a breath of fresh air.
